TEMPO

Tempo manufactures 100% of its products in our facility in Irvine, CA and those products are comprised of approximately 80% US sourced materials and components.

Tempo has been in constant communication with all suppliers and at this time, we have confirmed lead-times for all pending orders with our suppliers as they are open and in production. We are seeing longer lead times from some suppliers; however, Tempo continues to strive to provide customers with the best possible lead-time on all our products.

- <https://tempollc.com/>

VISCOR – REMAINING OPEN

Production has not been affected.

Standard 2-3 Week Lead Time for Visioneering.

4-6 Weeks for Certolux products.

- <https://www.viscor.com/>

VIVIDLEDS

Are some of your manufacturers out of stock or have ridiculous lead times? If so, we have the answer! Discover our large selection of stocking products today!

Keep in mind about 80% of our products are in stock and ready to ship. Remember, we have 8 USA warehouses that can ship within 2 to 3 business days of a confirmed order. This includes our new “Array” line of fixtures.

Even for our custom-made products, we currently have a normal 4 to 5 week lead time. Our overseas facilities are fully operational.
